LubeSoft Integration

LubeSoft integrates to most car wash entry systems allowing technicians to easily sell car washes from the bay terminal. Code Entry Interface (CEI) retrieves a unique code from the car wash entry system and prints it directly onto a customer invoice. The result is a reduction in paperwork and increase in professionalism - CEI streamlines your business.

Affordability

CEI is a cost-effective way to tie together and leverage your existing assets. Employ the strength of LubeSoft in car wash management when coupled with your wash POS system.

Speed and Convenience

Eliminate the need for additional labor with an innovative solution. Washes may be sold from multiple bays simultaneously without leaving the bay terminal. Errors are reduced as CEI removes an extra step in the selling process.

Increased Security and Accountability

Accountability is increased as employee IDs are attached to each transaction and all cash is collected in a centralized drawer.

The Power of LubeSoft

Use CEI to take advantage of LubeSoft's exceptional security, reporting and reconciling capabilities for car wash management.
