SPECIFICATIONS INFORMATION BULLETIN

BULLETIN NUMBER: 20100622

TO: Lubrication Information Users, all formats

FROM: MOTOR Specifications Data Acquisition

DATE: June 22, 2010

SUBJECT: Update of Volkswagen engine oil recommendations for gasoline engines as used in the 2000-05 Volkswagen New Beetle, Golf, GTI, R32, Jetta, Cabriolet, Eurovan, Passat, Phaeton, and Touareg

In the most recent 2000 through 2005 fluid capacity tables (edition 01.2010) as published by Volkswagen, the use of engine oil meeting the VW 502 00 standard is recommended for all gasoline engines fitted in the above mentioned vehicles.

Please be advised that the Volkswagen engine oil recommendations have been updated according to these recommendations where necessary in our electronic data and will be listed accordingly in our 2011 printed publications.

ISI Electronic Service Manual

The above listed Volkswagen engine oil standard, VW 502.00 is not included in this update ESM 6.853. This updated information will be included in the next ESM update.

You may want to keep a copy of this bulletin at each service bay for your technicians to use as a reference.

We want to take this opportunity to thank you for your continued support of MOTOR Information Systems. We look forward to serving your needs in the automotive industry for many years to come.
