

# Wireless VIN Scanner

## *Productivity & Profitability Captured Anywhere in Your Store*

Built with customer service in mind, ISI's wireless VIN scanner allows you to quickly & accurately generate vehicle work orders. Integrated Bluetooth® technology provides up to 50 feet of wireless VIN scanning capability so you can acquire vehicle information before they even pull into a bay. A single scan immediately populates your customer's vehicle year, make, model and engine size information into a LubeSoft® work order.

## Additional Features

- Multi-line scan pattern eliminates the need for exact aim and positioning.
- Battery life built to perform through a full workday on one charge.
- Battery fully charges within 1 hour.
- Rugged design reduces downtime from breakage.

*Take Your Customer Service to the NEXT LEVEL with LubeSoft! Call or Click for a Demo.*
