

Wireless VIN Scanner

Vehicle *VIN Captured* Anywhere in Your Store.

Built with customer service in mind, ISI's wireless VIN scanner allows you to quickly & accurately enter vehicle-specific information.

A single scan adds VIN information for new customers or populates your existing customer's vehicle year, make, model and engine size information into a LubeSoft® work order.

Integrated Bluetooth® technology provides enhanced wireless VIN scanning capabilities so you can scan the vehicle at extended ranges.

Benefits & *Features:*

- » Easy Aim & Positioning for Quick Scanning
- » Rugged Design Reduces Downtime
- » Work All Day on a Single Battery Charge
- » Only Takes One Hour to Fully Charge Battery
