

# Mobile Greeter Scanner

## Quickly & Easily *Scan Information* into Mobile Greeter.

Built with customer service in mind, ISI's wireless Mobile Greeter Scanner allows you to quickly & accurately scan vehicle VIN barcodes electronically into your system.

A single scan adds VIN information for new customers or existing customers and populates vehicle year, make, model and engine size information into LubeSoft® Mobile Greeter.

With Mobile Greeter Scanner's integrated Bluetooth® technology, you can quickly and wirelessly scan information into Mobile Greeter on your Apple® iPad® - anywhere in your shop.

## Benefits & *Features:*

- » Simple, one-touch scanning
- » 2D CMOS imager rapidly scans and decodes 1D and 2D barcodes
- » Small form factor - weighs only 2 ounces
- » USB rechargeable, high capacity Lithium-Ion battery
